

GATX TankTrainer™ Program

MAKING IT EASIER TO OPERATE YOUR RAIL FLEET

GATX is committed to providing convenient railcar training to our customers and to emergency responders

- Convenient: Training at your US or Canadian location or at a GATX shop
- Concise: A typical class runs for 2 to 4 hours
- Comprehensive: Covers a variety of railcar types and key government regulations

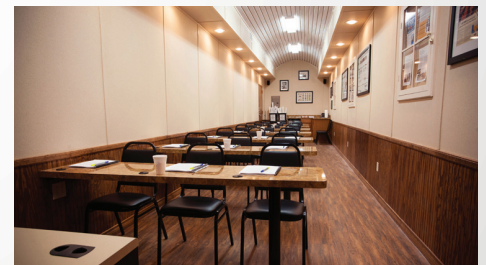

The TankTrainer

A 33,500 gallon tank car outfitted with a variety of fittings, coatings and configurations. Trainees are able to access both the interior and top of the car for a hands-on training experience.

The Classroom Car

A climate-controlled training facility which accompanies the TankTrainer and accommodates 21 trainees for classroom instruction from experienced GATX personnel.

To find out if the TankTrainer is appropriate for your location, please contact a member of your GATX service team
