**November 7, 2017 through February 24, 2018**

***This class qualifies for GI Bill Benefits***

Basic **EMT** training program is the basic course for Emergency Medical Technician/ambulance that follows the guidelines outlined by the United States Department of Health Education and Welfare in conjunction with the National Traffic Safety Administration, Department of Transportation. This is a lecture, discussion, demonstration, and practical application of the knowledge and skill necessary to care for individuals who have life-threatening emergencies and injuries.

Course content covers but is not limited to common medical emergencies, childbirth, problems of children as patients, lifting and moving patients, environmental emergencies, and extrication from automobiles. This course satisfies the requirements for the psychomotor exam required by the Massachusetts Office of Emergency Medicine and the written exam administered by National Registry of EMT as an EMT-Basic. Student must attain a 73 or better grade average to qualify for the psychomotor and/or written exam. Instructor: Greg Lambert

**Devens Campus, One Jackson Place, 27 Jackson Road, Devens, MA 01434**  
**For Info And Registration: 978-630-5775**
